

Kalasadam in summer 2011
Transforming Seaside in central Tallinn

photo by Reio Avaste

Linnalabor (Estonian Urban Lab) is a competence centre of **urban thought and action based** in Tallinn, **Estonia**. Founded in 2006 by a small group of young human geographers, Linnalabor has grown into a multidisciplinary team of experts.

We encourage participatory **urban planning** and **social innovations** through an educated citizen society and co-operation oriented city governing . We strive towards a **better city** by building a **close-knit network of theorists and practitioners** in the Baltics and beyond.

TRUE
URBANIST

TALLINN

is a city full of contrasts, an **urban laboratory** where interests and lifestyles bounce off each other and sometimes unexpected but always exciting reactions take place.

URBAN

walks will guide you through Tallinn following the **key concepts of contemporary urbanism** such as the rise of local communities, urban regeneration, urban gardening, the post-socialist city and urban sprawl.

WALKS

by **local experts and urban enthusiasts** show you the very urban face of one of the smallest capitals in Europe.

All you gotta do is pick your
